ST Charles City Building Permit Procedure:

- Construction must begin within one year of approval.
- B. The applicant must identify with stakes or other means, the location of (1) the property boundaries, and (2) the structure before inspection. A survey may be needed if ownership lines are questionable.
- The applicant will provide a copy of plans or drawings of the project for review.
- Applicant will provide a secure surface for attachment of building permit prior to inspection.
- E. Separate permits are required for electrical, plumbing and mechanical. Mechanical permits are handled through this office.
- F. Construction begun prior to obtaining a permit constitutes a violation and may be subject to fines.
- G. We request the applicant provide a copy of approval from any home owners association involved with the new construction.
- H. The applicant will provide approval from health department for septic system or from appropriate sewer district.
- Projects that will access a state highway must have approval from the Idaho Department of Transportation.
- J. Permits cannot be issued on lots that are illegally subdivided.
- K. Inspections will be performed by the county building inspector on; footings, foundations, framing, insulation, sheetrock, and final. The builder/ homeowner will call for inspections at least 24 hours before inspections are needed.
- A final inspection must be completed and a Certificate of Occupancy given BEFORE THE BUILDING CAN BE OCCUPIED.
- M. Refunds: If applicant chooses not to build after paying for permit a refund can be given upon request, less a \$50.00 processing fee, with not more than 80% of paid fees to be refunded. (Ordinance No. 2008-1, Section 2). Once work has begun on the project, i.e. cement has been placed, the job has begun and the permit cannot be refunded.
